# FAQ

## **1. What is Patron?**

Patron is the platform for supporting the influencers' market. It's provides influencers' sharing economy. (model : Airbnb)

Influencers and SNS users around the world will be able to post, discover and book social media sharing economy information on the internet and mobile tablet.

PATRON is a highly reliable marketing place of influencers' sharing economy, where the influencer's SNS delivery frame are tokenized utilizing blockchain technology,

Core Function of PATRON:

1. Sharing the influencer's SNS delivery frame at the spot. (Pay every time)
  2. Share an Influencer exclusively for several months (Pay monthly).
  3. Acquire favorite influencers and monopolize (annual contract)
- In various cases as above it is possible to deploy various business on PATRON platform.

## **2. How does it work?**

1. "Dissemination ability / reachability (number)"
2. "Power to engage / Engagement"
3. "Trust / evaluation by users"

Evaluation on host (indicating Patron) by the guest (indicating Influencer), support vote, how much he or she contributed to the PATRON platform.

Value of influencers and micro influencers are calculated on PATRON, mainly based on our own three judgment methods.

The means to solve will be explained in details in the next "PATRON service".
